

May 8, 1964

Mr. Zolph S. Calder  
251 South 3rd West  
Vernal, Utah

Dear Mr. Calder:

This acknowledges receipt of your letter dated May 3, 1964, in which you set forth certain facts relative to distribution of water on Pot Creek during the past few years. Our records do not agree with the figures which you present but we will be happy at any time to discuss the distribution on this system with you.

At the present time, since there is no scheduled trip to Vernal, you would need to come to Salt Lake City, or to discuss your problems with Mr. Guy at Vernal. Either he or representatives of our office here in Salt Lake will be glad to review our figures with you.

Yours very truly,

Wayne D. Criddle  
STATE ENGINEER
